

Government Fast Track Software Solution

We provide solutions, not promises

We believe in providing results, not promises. We provide a full range of professional educational and coaching services to make your life easier.

What if you had a Fast Track Program with step-by-step instructions?

- The most complete and detailed government contracting program available!!!
- There is nothing fast about the government contracting market. On average, it takes 36 months for a business to lay a foundation in the government market.
- What if you had a "Fast Track" process to help you navigate through the government contracting maze?

"What if you could cut the average time from 36 months down to 12 or even 6 months?"

Reach Your Peak Potential

That's exactly what we use with our clients. There has been over 10,000 hours invested in research and development to put together a software program that includes

virtually everything you could imagine. We call it the "Government Contracting Fast Track Program". What would have taken you years to discover and learn is now available in a simple and easy to use platform.

COMPONENTS OF THE SOFTWARE

We've simplified the Federal contracting process into one concise formula: P+P+P+P=P
The last "P" stands for profit. The other four "P's" are the phases needed to be successful in the government market.

+ PREPARATION PHASE

- assessment: discovering if you are ready to do government contracts

+ PROMOTION PHASE

- branding: creating an image that speaks to government buyers

+ PROPOSAL PHASE

- opportunities: sourcing opportunities - past awards, current projects & forecasts

+ PERFORMANCE PHASE

- performance: delivering the product or service

= PROFIT (the goal is not simply to win a contract; the goal is to be profitable)
